Harvard Lecture Theatre Seating

Introduction

About Auditoria Services Ltd.

Auditoria Services Ltd. have been designing, manufacturing and installing spectator seating from Rotherham, South Yorkshire, since 1977. Still family owned and now in its second generation, we are committed to investing in our workforce, producing everything in house, sourcing materials locally and placing importance on quality and customer satisfaction. Our team are here to support you through every stage of your project.

DESIGN

With nearly 50 years' experience in the industry and thousands of successful projects to draw from we have a depth of knowledge that is the envy of our industry. We create bespoke seating solutions with the latest CAD technology, providing customers with 2D and 3D visuals of their seating. Our customisable tried and tested ranges offer reliability, safe operation, long lifetime expectancy and low operational costs.

MANUFACTURE

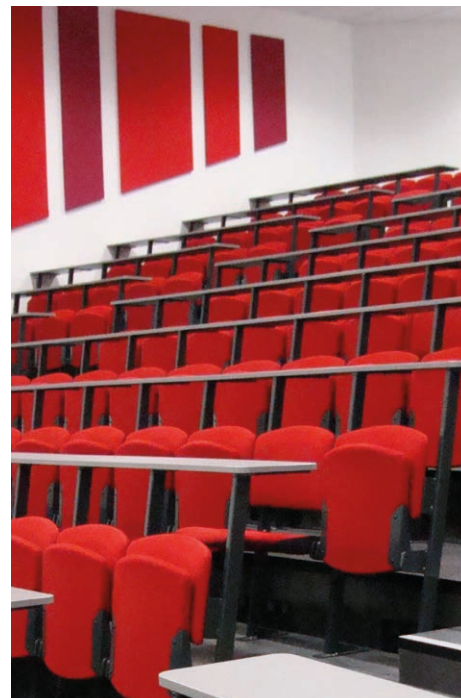

We continually invest in the latest technology; constantly improving our designs and processes. Sourcing over 70% of raw materials locally and manufacturing everything under one roof gives us complete control, from initial concept and design, to installation and handover.

INSTALL

We pride ourselves in some of the best installers in the UK who place the utmost importance in customer satisfaction and quality. We take the safety of our workforce and those working around them seriously and are proud to have won awards and recommendations for our approach to Health and Safety.

SERVICING

Whilst our seating is designed to require minimal maintenance, our dedicated service team are always on hand for parts, servicing or to answer questions about any of our cinema, retractable, lecture theatre or theatre seating installs.

Lecture Theatre Seating

About Our Lecture Theatre Seating Range

Whatever the size, shape or needs of your lecture theatre, we can tailor our chairs to suit your specification. We offer a wide range of seating solutions including standard lecture chairs, interactive chairs, booth seating, conference hall seating, Harvard layouts, and the flexibility of retractable seating with writing tablets or ledges.

'Our LT chair range has been independently tested to the relevant requirements of EN 12727-2016 Strength and Durability and meet Level 4'

OUR HARVARD SEATING

Named after the prestigious American university, the Harvard-style lecture seating layout has gained recognition as an excellent arrangement for tight rooms. The lecturer/speaker is surrounded on most, if not all sides, making it an ideal layout. In addition, desks can be equipped with accessories like electrical outlets, data transfer and microphones. This modern twist on the traditional lecture theatre offers a unique experience.

Our fixed tiering is designed to provide excellent sight lines for all students and a structurally sound foundation for your chairs. The curved rows surround the area of focus, complete with writing ledges and full-depth modesty panels. Discrete facing plates can be attached to the underside of these ledges to allow hidden trunking for power and data transfer.

KEY FEATURES

- Great for Tight Rooms
- Curved Rows Directed at the Centre of Focus
- Optional trunking for Power/Data transfer
- Full-Depth Modesty Panels
- Choice of Fabrics and Colours
- Choice of Options / Extras
