Lecture Theatre Seating

Our Lecture Seating

Whether your lecture theatres are large or small, fixed or flexible, we can tailor our seating to suit your needs. We have been able to install lecture theatre seating in a large number of educational facilities, including most UK universities.

However, we haven't just been limited to the UK, we have also manufactured lecture theatre seating for schools, colleges, and universities around the world, including the Netherlands, the UAE, and Australia. Thanks to our bespoke tiering you can be assured your audience has an accessible view no matter where they're sat.

As part of our lecture and conference hall seating range, we also offer retractable seating platforms for multi-use spaces, as well as interactive chairs, booth seating, and Harvard lecture theatre seating layouts to encourage collaborative learning.

'Our LT chair range has been independently tested to the relevant requirements of EN 12727-2016 Strength and Durability and meet Level 4'

Booth Style Lecture Theatre Seating

Our Booth Style Lecture Theatre

Most teaching sessions are based around a mix of listening to lectures, working around their portable devices, and discussion/activities in break-out groups among other activities.

To meet this growing need for flexible teaching environments we have designed our booth style lecture theatre seating. This type of seating layout encourages students to work together in small groups to better develop their communication and team working skills, allowing better collaboration and engagement of the subject matter.

We offer different sizes, shapes and configurations to suit departmental teaching needs and venue limitations as well as structural tiering to facilitate the perfect layout.
