Lecture Theatre Seating

Our Lecture Seating

Whether your lecture theatres are large or small, fixed or flexible, we can tailor our seating to suit your needs. We have been able to install lecture theatre seating in a large number of educational facilities, including most UK universities.

However, we haven't just been limited to the UK, we have also manufactured lecture theatre seating for schools, colleges, and universities around the world, including the Netherlands, the UAE, and Australia. Thanks to our bespoke tiering you can be assured your audience has an accessible view no matter where they're sat.

As part of our lecture and conference hall seating range, we also offer retractable seating platforms for multi-use spaces, as well as interactive chairs, booth seating, and Harvard lecture theatre seating layouts to encourage collaborative learning.

'Our LT chair range has been independently tested to the relevant requirements of EN 12727-2016 Strength and Durability and meet Level 4'

Harvard Style Lecture Theatre

Our Harvard Style Lecture Theatres

Ever-increasing in popularity, the Harvard-style lecture seating layout takes its name from the American University and is an excellent way of making the very best seating arrangement for a tight space by surrounding the lecturer/speak on most in not all sides. Often the desk is combined with accessories such as electrical outlets for power sockets, data transfer and microphones. This modern take on the lecture theatre gives a different feel to the standard lecture theatre seating.

To ensure all students have good sight lines and your chairs have a solid foundation, we will typically install our fixed tiering in curved rows surrounding the area of focus with writing ledges and full-depth modesty panels, with fixed or portable in each position. Discrete facing plates can be attached to the underside of these ledges to allow hidden trunking for fitted for power and data transfer.
