Lecture Theatre Seating

Our Lecture Seating

Whether your lecture theatres are large or small, fixed or flexible, we can tailor our seating to suit your needs. We have been able to install lecture theatre seating in a large number of educational facilities, including most UK universities.

However, we haven't just been limited to the UK, we have also manufactured lecture theatre seating for schools, colleges, and universities around the world, including the Netherlands, the UAE, and Australia. Thanks to our bespoke tiering you can be assured your audience has an accessible view no matter where they're sat.

As part of our lecture and conference hall seating range, we also offer retractable seating platforms for multi-use spaces, as well as interactive chairs, booth seating, and Harvard lecture theatre seating layouts to encourage collaborative learning.

'Our LT chair range has been independently tested to the relevant requirements of EN 12727-2016 Strength and Durability and meet Level 4'

Interactive Lecture Theatre

Our Interactive Chairs:

Most teaching sessions are based around a mix of listening to lectures, working around their portable devices, and discussion/activities in break-out groups among other activities.

To meet this growing need for flexible teaching environments we have designed our Interactive lecture seating. This type of seating layout encourages students to work together in small groups to better develop their communication and team working skills, allowing better collaboration and engagement of the subject matter.

The interactive chair is designed to allow 360-axis rotation allowing students to quickly and easily turn to face those to the side or behind without the need to rearrange seating or desks; encouraging a natural emphasis on group work, discussion, and shared learning.
