SC-5 Stacking Seating

Introduction

About Auditoria Services Ltd.

Auditoria Services Ltd. have been designing, manufacturing and installing spectator seating from Rotherham, South Yorkshire, since 1977. Still family owned and now in its second generation, we are committed to investing in our workforce, producing everything in house, sourcing materials locally and placing importance on quality and customer satisfaction. Our team are here to support you through every stage of your project.

DESIGN

With nearly 50 years' experience in the industry and thousands of successful projects to draw from we have a depth of knowledge that is the envy of our industry. We create bespoke seating solutions with the latest CAD technology, providing customers with 2D and 3D visuals of their seating. Our customisable tried and tested ranges offer reliability, safe operation, long lifetime expectancy and low operational costs.

MANUFACTURE

We continually invest in the latest technology; constantly improving our designs and processes. Sourcing over 70% of raw materials locally and manufacturing everything under one roof gives us complete control, from initial concept and design, to installation and handover.

INSTALL

We pride ourselves in some of the best installers in the UK who place the utmost importance in customer satisfaction and quality. We take the safety of our workforce and those working around them seriously and are proud to have won awards and recommendations for our approach to Health and Safety.

SERVICING

Whilst our seating is designed to require minimal maintenance, our dedicated service team are always on hand for parts, servicing or to answer questions about any of our cinema, retractable, lecture theatre or theatre seating installs.

Stacking Chair Seating

About Our Stacking Chair Seating Range

Our stacking chairs provide a quick and flexible solution to venues where permanent seating is not possible, and can be used on their own or to complement any existing Auditoria seating to increase capacity. We can customise any of our designs to fit your space, seating layout or storage requirements, whilst offering various options such as side linking, arms and bespoke storage trolleys.

SC-5 Specification

Technical Information

PRODUCT SPEC

Our SC-5 stacking chairs are supplied as a fully upholstered portable seating option and are supported with contoured moulded seats and backs for added comfort. Available with or without arms and interlocking brackets to secure chairs when required.

SEAT:

435mm front to back, upholstered foam cushion with a rounded edge, supported on a high-density plywood base.

BACK:

500mm top to bottom, upholstered foam cushion, supported on a high-density plywood base.

ARMS (OPTIONAL):

255mm long, Either solid timber or upholstered to match.

STANCHIONS:

The welded assembly is constructed from steel tubes, flat plates, and steel bars, with all parts precision laser cut for accuracy and quality. The finish for all steelwork is powder coated to RAL 7016 Anthracite Grey or RAL 9005 Jet Black as standard.

MATERIALS / OPTIONS:

Covering material to be selected from the standard range. For options refer to the options brochure.
